A Doctor of Liver Transplantation from the Second Ward in the First Affiliated Hospital of Sun Yat-sen University

Date: September 26, 2017 (Phone number: +86 20 2882 3388 Ext. 8278 [Second Ward])

#### Phone Investigation Recording

Investigator: No, kidney transplantation. You listened wrong. Kidney transplantation.

Doctor: I don't know about this year, and I don't know the exact statistics.

Investigator: Do you do a lot?

Doctor: It is fine, according to the frequency.

Investigator: Do you do it every day or every week? I will let the patient go to your hospital if you do a lot.

Doctor: Um... Not that frequently. They come in batches. Sometimes several could come in, sometimes we would rest for a couple of days, then we have another batch of several surgeries.

Investigator: When you said they come "in batches", I didn't quite understand. What do you mean by "batches"?

Doctor: In batches. It's like a trend. Organ donors would come in batches. It's not definite, sometimes they come continuously.

Investigator: Okay, so here come the donors, not the organs?

Doctor: Right. Because our hospital has the qualification, we could excise (organs) by ourselves. We often excise them ourselves.
