Doctor: Well, could you please call next week?

Investigator: Since my call is put through you, let me ask you a simple question, so that I can have an answer for my patient. You have been doing organ transplant all along, right?

Doctor: Ah.

Investigator: You've been doing kidney transplants all along, haven't you?

Doctor: Yes, yes.

Investigator: Because I know your hospital has done the most cases of transplantation among all the hospitals in Guangdong Province. You have done 400 to 500 cases last year, right?

Investigator: Yeah? As for the donor, the patient is asking whether the donor can be from young age like below 25 years old?

Doctor: Not sure, you have to have a face-to-face consultation. I can't answer this question.

Investigator: You don't have the answer?

Doctor: Right.

Investigator: So has the cost changed? Is there some change of fees? How much for the surgery?

Doctor: Ah?

Investigator: Is the cost of having a transplant surgery changed? How much does it cost to have a kidney transplant surgery?

Doctor: Please come have a face-to-face consultation with the doctor. It's not convenient to speak over the phone.
