

## 追查迫害法輪功國際組織 ( 追查國際 )

### World Organization to Investigate the Persecution of Falun Gong (WOIPFG)

To investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong; to bring such investigation, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society

A Nurse at the Kidney Transplantation Center of Yantai Yuhuangding Hospital,  
Shandong Province

Date: May 21, 2018 (Phone number: +865356691999)

#### Summary

1. The hospital can perform 300 to 400 cases of kidney transplantation per year.
2. The nurse was unwilling to talk about the organ wait time and costs on the phone.
3. The cost of a surgery is around 400,000 yuan.

#### Phone Investigation Recording

Nurse: Hello. Hello! Organ transplant center.

Investigator: Hey, you are the transplant (department)... May I speak to Dr. Li Dapeng?

Nurse: Well, he's not available. He is in the Department of Nephrology.

Investigator: Oh, the Department of Nephrology. Does he do surgeries?

Nurse: Well, he doesn't. He doesn't do surgery.

Investigator: Oh, he is in the department of nephrology, and not this organ transplant department?

Nurse: Right, right, department of nephrology.

Investigator: I'd like to ask you about this doctor. I am from Wuxi. I went to the First Affiliated Hospital of Suzhou Medical University to help a member of my family to get prepared for a kidney transplant. There is a doctor named Li Shenghong, who takes care of dialysis there. He recommended me to contact your Yuhuangding Hospital here in Shandong. He told me that you do a large number of cases and can do them fast. So he told me to try to contact you here to speed things up. I'm wondering how long it will approximately take to have this kidney transplant in your hospital, if we come?

Nurse: Well, how about this? I will give you the phone number of Director Liu. You contact Director Liu and make an appointment with him at the outpatient clinic. You come over and let him check out (the patient).

Investigator: Dr. Liu Dongfu, is he?

Nurse: Exactly! Check the dates, when he is on duty at the outpatient clinic, and then you come over.

Investigator: May I will ask some more questions? Your hospital is doing a lot of kidney transplants like this, right?

Nurse: Well, yes, yes.

Investigator: The doctor at our Suzhou hospital said that your hospital could do 400 or 500 kidney transplants a year, so...

Nurse: Well, we've done a lot, but can't be that many!

Investigator: You can't do 400 or 500 cases?

Nurse: No, no.

Investigator: In that case he's a bit exaggerating. But you have no problem doing 300 to 400 cases, right?

Nurse: Ah, yes.

Investigator: I see. How long does it usually take to leave the hospital after the operation?

Nurse: It's fast once you finish the operation. You can leave the hospital after ten days, and the quickest is almost within a week now.

Investigator: Oh, that fast?

Nurse: Ah, ah.

Investigator: I would like to ask how much the approximate cost of the surgery is?

Nurse: Uh, the cost of the surgery. You have to prepare about 400,000 yuan anyway.

Investigator: Is 400,000 yuan enough? Is it ok?

Nurse: Ah, yes, yes. I think it's that amount at least.

Investigator: The doctor at our Suzhou hospital said that Dr. Liu Dongfu does this operation. Will he do it oneself?

Nurse: Right, you can contact Director Liu. Yes, yes.
