Phone Investigation Recording

Investigator: Is this the First Hospital of Kunming? Hello.

Nurse: Yes.

Investigator: Yes, I am from Zhejiang. We have a doctor at Lihuili Hospital. Because I have a family member, who wants to have a kidney transplant, but the local hospital has done too few cases. So he introduced me to...he said, “You can ask Kunming (hospital), Kunming does a lot, you can go there to do it, and the wait time is short.” Hello~ I want to ask, is your hospital doing more than others?

Nurse: We are the new location of this hospital, Gengbei Hospital. Are you looking for the original location, or here?

Investigator: Are you in the North Campus?

Nurse: Yeah, right.

Investigator: I mean can I do a kidney transplant here?

Nurse: Yes, you can.

Investigator: You do, just because...

Nurse: Yes, you can do it, you can do it.

Investigator: I want to ask how long it will take to wait for an organ, if the patient goes there?

Nurse: Definitely you will have to wait for the tissue typing!

Investigator: Oh, I know that, because they told me you do a lot of transplants, so I come here, because I think the wait time would be shorter. The doctor told us that you did 400 or 500 cases of this kidney transplantation last year, right?

Nurse: Hmm, hmm.

Investigator: Because our doctor mentioned, have you done a lot this year? This year.

Nurse: Yes, we do a lot every year!

Investigator: these days, nowadays, If I am going there now, maybe the wait time can be short?

Nurse: If you want to do it, you decide to do it. Come here first, the doctor will talk to you about everything. If you decide to do it, come to the hospital, check in and then see what we can do.
