#### Phone Investigation Recording

Investigator: Hello!

Qu Qingshan: Speaking.

Investigator: Hello! Is that Director Qu Qingshan of the Liver Transplantation Department of the People's Hospital of Zhengzhou?

Qu Qingshan: Yes, speaking.

Investigator: Oh, hello. I am the deputy director of the Office for Maintaining Stability at the Sichuan Provincial Political and Legal Affairs Commission. Today I am calling you to ask for your help. I have a relative living in your area. He has late-stage liver cirrhosis. He wants to be hospitalized at your hospital and get a liver transplant.

Qu Qingshan: When will he come?

Investigator: Oh. I want to make contact for him right now. It all depends on you. Whenever you can schedule the operation, I will ask him to come over.

Qu Qingshan: It does not matter when we want him to come over. He needs to come for a checkup.

Investigator: Yes, as I said, it is like this. It depends on you. I am just calling to inquire. Whenever you have time, I will ask him to come over.

Qu Qingshan: How about tomorrow morning?

Investigator: Ah, tomorrow. How about the day after tomorrow? Where can we find you?

Qu Qingshan: On the day after tomorrow, I'll have a business trip. You...

Investigator: Then tomorrow morning is fine. Okay, then I will ask him to come tomorrow morning. Where can we find you tomorrow morning?

Qu Qingshan: Ah, this ward building.

Investigator: The ward building, OK. This is the situation.

Qu Qingshan: OK, after he comes, I will take a look at his situation.

Investigator: OK, take a look at his situation. OK, for such a regular case, without any special situation, how soon can the operation be completed?

Qu Qingshan: It depends on how soon a matching donor can be found.

Investigator: Ah, all of them are, the normal ones. Another thing is, the donors you are using now, are still the normal donors of Falun Gong practitioners, right?

Qu Qingshan: Yes, all of them are in the normal state.

Investigator: All are normal ones. As for the donors, would you take a person to the hospital and simultaneously do organ excision and transplantation? Or would you excise the organ outside the hospital and take it back for the operation?

Qu Qingshan: How about this? When the time comes, depending on his case, I will discuss the details with him face to face. Is that OK?

Investigator: Good. OK. Then you will talk to my relative in person. I will ask him to contact you directly. I will talk to him as soon as I hang up the phone.

Qu Qingshan: Ah, Ah.

Investigator: Haha, OK. That is fine.
