

追查迫害法輪功國際組織 (追查國際)

World Organization to Investigate the Persecution of Falun Gong (WOIPFG)

To investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong; to bring such investigation, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society

Ye Qifa: Vice President of the Third Xiangya Hospital of Central South University

Date: November 6, 2018 (13875987051)

He is director of the Engineering and Technological Research Center in Organ Transplantation Medicine at the Third Xiangya Hospital of Hunan Province; and director of the Division of Organ Transplant Surgery and Division of Hepatobiliary Surgery, Zhongnan Hospital of Wuhan University
Hospital Address: 138 Tongzipo Road, Yuelu District, Changsha, Hunan Province, 410013

Summary

1. The hospital does organ transplants every day. After the matching is finished, a surgery can possibly be performed within a month.
2. Investigator: About that, your donors are still Falun Gong (practitioners), donors in normal conditions, right?
3. Ye Qifa: It's easy to perform (the surgery). Just send me his medical record first, alright?

Phone Investigation Recording

Ye Qifa: Hello!

Investigator: Hello, how are you? Is that President Ye Qifa at the Third Xiangya Hospital?

Ye Qifa: Yes, what is the matter?

Investigator: Hello! My last name is Wang. I am the deputy director of the Office for Maintaining Stability at the Sichuan Provincial Political and Legal Affairs Commission. I am calling today to ask for your help. I have a relative living in your area. He needs to do a kidney transplant surgery.

Ye Qifa: Can you send me the information regarding his illness?

Investigator: OK. I will send it to you in a moment. Let me explain his condition to you ...

Ye Qifa: You come first for matching, OK?

Investigator: OK. After the matching, how long will it take to arrange the surgery?

Ye Qifa: Send me information about his illness. Give me this, then ask him to come. Let me arrange the matching for him first. How about that?

Investigator: Good. His condition is, blood type B, 45 to 46 years old, like that.

Ye Qifa: You send me his name, gender, age, and the illness? Blood type, send to me. OK? We will do matching right after he comes here. Just come.

Investigator: OK. So generally speaking, how long would it take for the surgery to be arranged? How long shall we wait?

Ye Qifa: We do it very week. It depends on the matching results. If his matching can be easily done, then it's within about one month. So just hurry up and register for the matching. How about that?

Investigator: Oh, so you are doing this every day?

Ye Qifa: Yes, yes, yes.

Investigator: About that, your donors are still Falun Gong (practitioners), donors in normal conditions, right?

Ye Qifa: It's easy to perform (the surgery). Just send me his medical record first, alright?

Investigator: Okay. How about this? Since I am in Chengdu, I need to contact my relative, so his family members can visit you to take a look. How long do they have to wait? How long will they wait for the surgery to take place? I want to ask about the timing.

Ye Qifa: Where is the patient now?

Investigator: The patient is currently in Tianxin District of Changsha City.

Ye Qifa: Just tell him to hurry up and come for the matching soon. Matching can be done in Changsha, too. He can come and do matching at my hospital from Changsha. According to the matching results, he can just come and do it, when a match is found.

Investigator: So (the surgery) can be done immediately when a match is found, right?

Ye Qifa: Right, right. Does this work?

Investigator: OK, good. That's good. Then let's conclude our conversation here. Thank you.
