Phone Investigation Recording

Investigator: Do you have a lot of patients on the waiting list? Can a patient have the surgery soon after he checks in?

Nurse: It's impossible to have the surgery right away. A lot of patients are on the list.

Investigator: Not that fast? So how many cases of kidney transplantation have you done this year?

Nurse: It depends. It depends on what kind of kidney transplant surgery you are talking about. You have to wait for kidney sources. We have living kidneys, donor kidneys, DCD donor kidneys and corpses' kidneys. Do you want living donor kidneys? Do you have a relative as your donor? It will be quick to queue up (with an existing donor). But if you want to wait for the kidney sources to show up in the hospital, it will be very slow.

Investigator: Very slow? How slow?

Nurse: At least 5 years!

Investigator: Ah, so long?

Nurse: Yes, at least 3 to 5 years.
