Phone Investigation Recording

Liu Dongfu: Hello.

Investigator: Hello, how are you? Is that Director Liu Dongfu from Yantai Yuhuangding Hospital, Division of Kidney Transplant?

Liu Dongfu: Yes, yes.

Investigator: Hi, how are you? I am the deputy director of the Office for Maintaining Stability at the Sichuan Provincial Political and Legal Affairs Commission. I am calling now from Chengdu. I have a relative living in Qingdao, who now needs to do a kidney transplant. So, I want to ask for your help to arrange a liver transplant at your hospital.

Do you think this is fine?

Liu Dongfu: Sure, sure. Where is he now? He ...

Investigator: In Qingdao. He lives in Qingdao. He now, oh, he is blood type B.

Liu Dongfu: OK, it's OK.

Investigator: This year ... Ah?

Liu Dongfu: It's OK with us. How old is he? His age?

Investigator: Forty-five years old.

Liu Dongfu: Oh, fifty years old. How about I check the organ matching results for him?

Investigator: Sure.

Liu Dongfu: Matching results, then, well, let me see this, whether there are such things. I don't think it will take too long.

Investigator: OK. Generally speaking, how long would it take at your hospital? Can you arrange a surgery within one or two weeks?

Liu Dongfu: It's hard to say. It can be a bit faster, or a bit slower. Can a suitable one be found? ...It depends on the blood type.

Investigator: Right.

Liu Dongfu: Also, kidney transplants cannot be done with only simple examinations.

Investigator: Right, right.

Liu Dongfu: He is blood type B. He needs to have a matching for his blood type!

Investigator: Yes.

Liu Dongfu: For liver transplant, any blood type can do it.

Investigator: Yes.

Liu Dongfu: This, it requires blood type matching, and it must be blood type B. Do you know about that?

Investigator: Yes, yes, yes. So you mean he should visit you first for matching, right?

Liu Dongfu: You first let him come to me. I'll do a matching for him, then I will know better how it should work.

Investigator: So how long does he have to wait if he can have the surgery?

Liu Dongfu: Let me tell you this. It can be as fast as within a week. If not that fast, you can have it after waiting for two months, in two months.

Investigator: Oh, OK. So if fast, one week; if slow, one to two months? Correct?

Liu Dongfu: We may have it (kidney source) as fast as tomorrow.

Investigator: OK.

Liu Dongfu: (inaudible)

Investigator: OK. That's fine.

Liu Dongfu: So, so what I want to say is not that kind of things!

Investigator: Also, I want to ask about the donors. Your donors, are normal donors like Falun Gong (practitioners), right?

Liu Dongfu: Oh, the normal ones!

Investigator: Generally, what are the ages of the donors now?

Liu Dongfu: That's hard to say, hard to tell.

Investigator: So it is like, please help do quality control. The best would be, having a donor like that type of Falun Gong people, I mean a donor with normal conditions.

Liu Dongfu: This, listen to me, there is something that we can discuss after you come here.

Investigator: OK, OK. We discuss face to face. OK.

Liu Dongfu: Even if you come..., I still cannot say that!

Investigator: How about this. We'll talk face to face. Anyway, I know what you mean.
OK, OK. Thank you. OK, I will respond to you after discussing with my relative.

Thanks!

Liu Dongfu: Okay.
