Date: October 7, 2017 (+862082379475)

#### Summary

1. “We estimate that it takes 10 days to half a month to find the liver.”
2. “Our (organ transplant) fee maybe around 500,000 yuan”.

#### Phone Investigation Recording

Nurse: This is the Organ Transplantation Department.

Investigator: Hi, how do you do? Is it possible for a patient from another province to have emergency liver transplantation in your hospital?

Nurse: Well, only when you've got a donor organ can this be possible!

Investigator: That's why I am asking, because you are a big hospital!

Nurse: We are the Huangpu Branch Hospital.

Investigator: I know, I know that you are the Huangpu Branch Hospital.

Nurse: Yes, that's right!

Investigator: Oh, isn't liver transplantation also done at your inpatient ward?

Nurse: We do it here, as well!

Investigator: Is the doctor-on-duty available?

Nurse: You ask for the doctor-on-duty?

Investigator: Yeah.

Nurse: The doctor-on-duty is not here at the moment.

Investigator: Unavailable now?

Nurse: No.

Investigator: If it involves an emergency liver transplant, maybe your director is needed to coordinate, right?

Nurse: Right!

Investigator: You see, now...

Nurse: Ah, wait a minute, you wait a minute!

(The nurse called the director: “Hello, director, someone from another province...”)

Director Jiao: Hello?

Investigator: Oh, oh, oh, hi! Can you hear me?

Director Jiao: How is the situation of the patient?

Investigator: This patient is now mainly suffering from a hepatic coma. He may need to, want to have an emergency liver transplant. Can it be done at you place?

Director Jiao: What's his blood type?

Investigator: Type B, only blood type is somewhat better.

Director Jiao: Oh, at which stage is his hepatic coma?

Investigator: Stage? You mean any indicator?

Director Jiao: I just need to judge whether he's able to walk?

Investigator: No, no, not able to get down and walk.

Director Jiao: Can't get off bed. How much is his cholesterol?

Investigator: Eh, I need to ask his doctor about this, because I am only his relative.

Director Jiao: We are able to do liver transplantation, but we are concerned that the patient can't wait long enough for the liver to arrive.

Investigator: Right, that's what I'm asking, that's why I'm calling you to find out.

Director Jiao: Right, right. Ok, let me ask, then you answer, okay? Let me ask you, first, the patient is now lying in bed, right?

Investigator: Yeah.

Director Jiao: Second, how long has he not taken any food?

Investigator: Oh, it's been about three to five days.

Director Jiao: 3-5 days. Third, the patient is in a coma, right?

Investigator: Well, yes.

Director Jiao: Fourth, what is the cause of his hepatic coma?

Investigator: He has, uh, what is called, oh, cirrhosis of liver.

Director Jiao: Oh~ I know.

Investigator: Ah, yes, (he's been) inflicted by it for a long time.

Director Jiao: Ok, has he experienced a hepatic coma like this before?

Investigator: No, this is the first time.

Director Jiao: The first time? Uhm.....

Investigator: Because we tried to persuade him last year...

Director Jiao: Ok, let me tell you, get a pen and jot down my cellphone number, okay?

Investigator: Ah, ok, go ahead, please.

Director Jiao: 131

Investigator: 131, oh.

Director Jiao: 788

Investigator: 5788?

Director Jiao: 13178813750

Investigator: 13750

Director Jiao: 13178813750

Investigator: Oh, oh, doctor, what is your surname?

Director Jiao: Repeat my number.

Investigator: 13178813750

Director Jiao: Correct. Ok, my surname is Jiao as in the Chinese word Kao Jiao (scorch), call me Director Jiao.

Investigator: Oh, Director Jiao. I will give your number to the surgical director of our hospital, and ask him to contact you, right?

Director Jiao: Oh, no, let him send me a text message, because I am busy, text me, I will reply at any time. Then you family members call me when you have time, okay?

Investigator: Oh, give you a call.

Director Jiao: Because I... First, we are able to do liver transplantation, but we may not have the proper liver at the moment. Now I will see how long this patient can hang on there, see if he can drag along for another 10 days. We estimate that it takes 10 days to half a month to find the liver. If it is within two or three days, we can't find the liver!

Investigator: Oh, oh, oh, see if he can live for 10 more days to half a month?

Director Jiao: Yes, yes, see how long can the patient still live, right? If you come, we don't have the liver, then the patient will soon be dying.

Investigator: It is because our director said that your hospital might have the conditions for emergency liver transplantation. He knows that you have done it before...

Director Jiao: Yes, yes, I know that we are able to do it. But the key is to have the liver now!

Investigator: Ah~

Director Jiao: Speaking of the liver, you see, if a liver is available today, then it is possible. If not, then there is no way...

Investigator: He said that your hospital is big, because you are very famous in the Guangdong region, and it is possible for you to coordinate all aspects compared to ~

Director Jiao: I know, but you didn't understand what I meant, that is, you must give us two weeks.

Investigator: Oh, ok...

Director Jiao: Ok, good. Uh, in addition, our fee maybe, uh, our fee maybe around 500,000 (yuan).

Investigator: Oh, that's fine, no problem, I know this fee, ok.

Director Jiao: Uh.

Investigator: Yes, it's ok.

Director Jiao: Fine, that's it.

Investigator: That's all for now, ok, ok, goodbye.
