Phone Investigation Recording

Investigator: Hello, I would like to confirm with you that your Jilin Provincial Travel Radio and Jilin University have jointly launched a "Xingan Baobei" free liver transplantation program for children? I just want know if this is true.

Enrollment Hotline: Yes, sir.

Investigator: When did it start? Do you still accept applications?

Enrollment Hotline: Yes, we are still in the period of registration.

Enrollment Hotline: Hello, sir. Yes, we still accept applications right now. This is because if he is qualified for the prerequisite... because there is a screening, a testing procedure as the first step. If the child cannot pass the screening, there might be a small portion of expenses that are not covered. After the preliminary screening, if he meets the requirements, further examinations and the preliminary screening fee will be covered by this free assistance plan.

Investigator: That means, if the kid passes the screening, the liver sources and surgery will both be free, correct?

Enrollment Hotline: Yes, yes.

Investigator: What are those several major hospitals that you mentioned?

Enrollment Hotline: The First Hospital of Jilin University in Jilin Province. It is the Liver Transplantation Center of the First Hospital of Jilin University.

Investigator: What is your application deadline?

Enrollment Hotline: The end of June. The entire month of June is the registration phase.

Investigator: This is the application phase. Then, you will inform the First Hospital of Jilin University, and they will contact the patients, to screen them, correct?

Enrollment Hotline: Yes.

Investigator: I have another question. It seems that there are abundant liver sources, right? At least, [the liver sources] can be guaranteed after screening and can be transplanted at any time, right?

Enrollment Hotline: Yes, that's correct.

Investigator: So now several points are clear. First, it is true that ten children will receive free liver transplant operations, and you are accepting enrollment registrations right now, right?

Enrollment Hotline: Yes.

Investigator: So after the applications, the First Hospital of Jilin University will do a screening, after which the transplants can be performed, correct?

Enrollment Hotline: Yes.

Investigator: Ok, then, I am clear now. Thank you!

Enrollment Hotline: Ok, you are welcomed. Bye.

Investigator: Bye.
