

## 追查迫害法輪功國際組織 ( 追查國際 )

### World Organization to Investigate the Persecution of Falun Gong (WOIPFG)

To investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong; to bring such investigation, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society

Zhu Youhua: Director of the Kidney Transplant Department of Shanghai Changzheng Hospital

Date: January 29, 2016 (Phone number: 86+13901743189)

#### Summary

1. “We were doing (kidney transplantation) in 2016. We are still doing it now.”
2. (Investigator: You have been doing it this year? Of course, I will go if you do a lot)

Zhu Youhua: A lot. It is not only that we are doing it, the whole country is doing it.

#### Phone Investigation Recording

Investigator: Hello, is that Doctor Zhu Youhua?

Zhu Youhua: Yes.

Investigator: I wanted to ask you the other day that I have a nephew, who wants a kidney transplant. I would like to ask you whether you are still doing that? I am from Changzhou. I am in Changzhou.

Zhu Youhua: Oh. Can we talk when you come to the clinic? It is hard to make things clear over the phone... My clinic is on Wednesdays.

Investigator: But Dr. Zhu, it is pretty troublesome to get the patient to your place, so I would like first to consult with you, because I myself am in the medical field.

Zhu Youhua: Need to get his blood sample to do tissue typing.

Investigator: That's not the issue. Because I am in the medical field, and he is my nephew, so he wants me to ask about this.

Zhu Youhua: I do not care whether you are in the medical field or not. You cannot do it without tissue typing. How can it be done randomly?

Investigator: That's not what I meant. Of course, we need to do tissue typing. I mean your hospital is still doing that. Once I know you can still do it and know you can do it fast, I then can come over.

Zhu Youhua: How can it be so fast? As to finding a match, it is all from donated organs. We can do it if there is (a suitable matching organ) and cannot if there is not.

Investigator: Do you do it this year, in 2016?

Zhu Youhua: We are still doing it in 2016. We are still doing it now.

Investigator: Oh, you are doing it today.

Zhu Youhua: Today, there is a mother and her son doing a surgery but have not been done yet till now.

Investigator: Oh, oh, oh, you are doing it today. Then...

Zhu Youhua: Our operation, what's special about it? I am asking you.

Investigator: I do not mean that it is problematic. I mean if you do a lot, I then feel the wait time should be short.

Zhu Youhua: It is not just our hospital. Other Hospitals are also doing a lot of transplants.

Investigator: But your hospital...because I had a friend, who did an operation in your hospital, and he said your hospital did it pretty well, so of course, I want to ask about it. If it is good and fast, I then can..

Zhu Youhua: If we do, we are very strict. We perform very strict examination.

Investigator: Yes. I, I know about that, as that's about people's lives. In this year, you... Have you done a lot in 2016?

Zhu Youhua: No matter how many have been done, I have no way to give you the exact number. We are doing it. There are very few donated organs and now the live donors, mothers, fathers, all have been strictly inspected by the Shanghai authorities. The inspection in Shanghai is very strict. It does not matter at all. If it is not from immediate family members, then we cannot do it. Otherwise, it would be illegal.

Investigator: Then can the Red Cross Society give you donations? The Red Cross can supply organs, can't it?

Zhu Youhua: We have to do it according to the regulation of the government that the donor must be one of the patient's relatives within three generations. If it does not conform with the regulations of the government, we cannot even do a single one.

Investigator: Oh, are you saying that without a kidney donated by a relative, you will not do (the transplant)?

Zhu Youhua: Donation. Organ donation. Donation from car accident (victims).

Investigator: Oh. That is, that is, this year, you..

Zhu Youhua: Without organ donations, how can the U.S. and European countries do it? They also depend on donations.

Investigator: Right, right... I know about that. That is, you have been doing it this year? Of course, I will go if you do a lot.

Zhu Youhua: A lot. It is not only that we are doing it, the whole country is doing it. This is a correct thing to do based on the government's regulation. We just do whatever should be done.

Investigator: Right. That's for sure. It should be done based on the government's policy. Otherwise, you are violating the law. I, what I mean is that if you do a lot this year, I definitely will...

Zhu Youhua: You just come here if you want to do it, and you do not need to worry about any other things. We are very strict. Shanghai is the strictest place (for organ transplants).

Investigator: Okay.

Zhu Youhua: Okay...Let's do it according to the policy of the government, okay?
