

追查迫害法輪功國際組織 (追查國際)

World Organization to Investigate the Persecution of Falun Gong (WOIPFG)

To investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong; to bring such investigation, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society

Miao Shuzhai: Chief Physician of the Organ Transplantation Center of the People's Hospital of Zhengzhou

Date: November 6, 2018 (13938277351)

Summary

A liver transplantation operation can be arranged in one or two weeks, to a month, in general.

Investigator: And regarding your current donors, your donors are that type of normal donors (that practice) Falun Gong, right?

Miao Shuzhai: Right, right.

The donors are taken to the hospital for simultaneous organ extraction and transplant.

Phone Investigation Recording

Miao Shuzhai: Hello!

Investigator: Hey, hello! Is that Director Miao Shuzhai of the Liver Transplantation Department at the People's Hospital of Zhengzhou?

Miao Shuzhai: Ah, speaking.

Investigator: Ah OK. This is the situation. I am calling from Chengdu, Sichuan. I am the deputy director of the Office for Maintaining Stability at the Sichuan Provincial Political and Legal Affairs Commission. Today I am calling to ask for your help. I have a relative living in your area. He is in the late stage of liver cirrhosis. He wants to go to your hospital for a liver transplant. I am not sure if you can arrange it?

Miao Shuzhai: Well, what is his blood type?

Investigator: His blood type is B. He is 45 years of age this year.

Miao Shuzhai: Ah, ah. Has the diagnosis already been confirmed?

Investigator: Yes, confirmed.

Miao Shuzhai: Ah, it's doable.

Investigator: Then how soon can the operation be arranged after he comes over?

Miao Shuzhai: You have to come here and get confirmed, then it can be done.

Investigator: He has the full set of physical exam results.

Miao Shuzhai: Ah, then bring the results over. It will be fine, if he comes over.

Investigator: Well, yes. When you check out the materials, if they're suitable, then it can be done, right?

Miao Shuzhai: Right, right, right.

Investigator: How soon can it be arranged? Can it be arranged in one or two weeks?

Miao Shuzhai: Usually one or two weeks, up to a month.

Investigator: Oh, usually one or two weeks, up to a month. That is fine.

Miao Shuzhai: Yes, yes, usually this is the time frame.

Investigator: And regarding your current donors, your donors are that type of normal donors (that practice) Falun Gong, right?

Miao Shuzhai: Right, right.

Investigator: If that is the case, would you take a donor to the hospital and simultaneously do organ excision and transplantation? Or would you excise the organ outside the hospital and take it back for the operation?

Miao Shuzhai: In our hospital.

Investigator: In your hospital, you can directly do (the organ extraction and transplant) simultaneously, right?

Miao Shuzhai: We have to exchange the hospital, exchange the hospital.

Investigator: So, it would be extracted and transplanted simultaneously. In this case, the impact of the intermediate steps would be relatively small. I am concerned about this, you know.

Miao Shuzhai: Yes, yes.

Investigator: Additionally, I heard that you do a lot now, right?

Miao Shuzhai: Ah.

Investigator: How many did you perform last year, liver transplants?

Miao Shuzhai: Last year, we did several dozens.

Investigator: Several dozen?

Miao Shuzhai: Not as many as West China Hospital did. West China Hospital does a lot.

Investigator: OK, good, good.

Miao Shuzhai: OK, okay, we will discuss then.
