

## 追查迫害法輪功國際組織 ( 追查國際 )

### World Organization to Investigate the Persecution of Falun Gong (WOIPFG)

To investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong; to bring such investigation, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society

A Doctor from the Kidney Transplant Department at the Second Affiliated Hospital of Hainan Medical University

Date: October 18, 2018 (Phone number: +86 898 66809122)

The hospital has been doing kidney transplants for over a dozen years. Now it's expanding. Since the organ transplant department was officially founded in July, they've been doing more transplants. The kidney transplant department has done several dozen over the last two months. The organ wait time varies. There have been cases, where the patient had the surgery on the same day, when he/she became hospitalized.

#### Summary

1. "I can only tell you that now we are doing more than before, and compared to before, it is easier to wait (for the donor). We've done more since our department was established."
2. "Several dozens of cases (of kidney transplantation) over the last two months."
3. "We had cases, where the surgeries were done on the same day as the patients were admitted to the hospital."
4. "Now President Xiao (Xiao Jinsui), President Wang, and the newly-arrived Director
5. Sun are all doing it."
6. "If things go smoothly, the price (of a kidney transplant) would be a bit over 400,000 yuan."
7. The 400,000 yuan would include the money given to the donor.

#### Phone Investigation Recording

Doctor: Hello! How are you? This is the organ transplant department.

Investigator: Hello! How are you! Is that the Second Affiliated Hospital of Hainan Medical University?

Doctor: Yes.

Investigator: Well, I have a family member, who wants to have a kidney transplantation. Originally, he was planning to go to Guangzhou to do it. Later he searched online and found your hospital. (Doctor: Yes.) He originally planned to go to Guangzhou but found out that your hospital is expanding, and you have many experts here. Therefore, he wants to come to your hospital, to do it. I'm calling to inquire about the transplant surgery. How

long do we have to wait for the surgery after we go back (to China)?

Doctor: Sorry, I don't know.

Investigator: Oh.

Doctor: I can only tell you that now we are doing more than before, and compared to before, it is easier to wait (for the donor). To repeat, we are doing more cases than before, ah, the wait time is shorter than before.

Investigator: Ah. As for the kidney transplant, when did your Second Affiliated Hospital of Hainan Medical University start doing it? This year?

Doctor: We've been doing it for more than a dozen years now.

Investigator: Oh, you've always been doing it? Aren't you just established this year? I thought you just started doing it this year.

Doctor: No, only that our department was established this year, we've been doing it for more than a dozen years.

Investigator: Oh. It means that you are expanding and doing more nowadays. Have you done a lot this year? I mean the kidney transplants?

Doctor: Yes, right.

Investigator: Have we done a lot this year?

Doctor: Yes, a lot. In these two months, we've done more since our department was established.

Investigator: You have done... Could you shed some light on the volume that we have done?

Doctor: Several dozens of cases over the last two months.

Investigator: Is there any case that was done quickly? You said several dozens of cases over the last two months. I think, therefore, some of those cases were done very quickly.

Doctor: Yes. We had cases, where the surgeries were done on the same day as the patients were admitted to the hospital.

Investigator: Oh. Could you tell me about the pricing? How much does it cost?

Doctor: If things go smoothly, the price would be a bit over 400,000 yuan.

Investigator: Over 400,000 yuan.

Doctor: That's the cost for the hospitalization.

Investigator: Oh, oh, I see.

Doctor: Um, the post-surgery anti-rejection medication, the post-surgery anti-rejection medication being taken for long term is not included. OK?

Investigator: Oh, then...

Doctor: That's not included in the hospitalization, not in the hospitalization. The hospitalization costs around 400,000 yuan.

Investigator: Which director or the hospital's president is doing the organ transplant surgeries now? I heard President Xiao is really good at this.

Doctor: Yes, now President Xiao (Xiao Jinsui), President Wang, and the newly arrived Director Sun are all doing it. They all do organ transplants.

Investigator: Oh, they all do...so your strength is growing, and you are doing more?

Doctor: Yes, we do more than before, since our departments became separated, we do a little bit more than before.

Investigator: So, these 400,000 yuan would include the money given to the donor, right? All included?

Doctor: Yes, right, right. Included, included.

Investigator: Alright. We'll go look for you when we arrive. What's your last name?

Doctor: You may come straight to the organ transplant department. We have someone in charge of registration.

Investigator: Oh. Which doctor takes care of registration? May I contact him/her directly?

Doctor: You may come to our office directly.

Investigator: Is it this office with this office phone number of yours?

Doctor: Yes, right, right.

Investigator: Alright, alright. Thank you so much! Goodbye!

Doctor: Ah, OK.
